

Hospitality Digital Learning Resources

Educators can prepare students for exciting careers in hospitality management with the Oracle Academy Hospitality Program: Digital Learning Resources. Built on Oracle's leading hospitality management, these resources for teaching and learning empower educators and their students to gain a strong foundation in industry practices and the technology skills highly valued by employers worldwide.

Oracle Hospitality Digital Learning Resources introduce students to real-world hotel management concepts and workflows using content modeled on Oracle Hospitality OPERA Cloud—trusted by hotels around the world. With Oracle Academy, educators can seamlessly integrate hospitality learning into their courses, equipping students with the expertise needed to thrive in today's dynamic hospitality industry.

Students learn critical concepts and skills including:

- Hotel property management fundamentals
- Guest services and experience optimization
- Housekeeping and maintenance management
- Reservations and rate management
- Front office operations
- Sales, events, and group business coordination

Flexible, accessible, and forward-looking

Oracle Academy's Hospitality Digital Learning Resources are designed for use anytime, anywhere, across multiple devices—making it simple to bring advanced hospitality tools into any educational program. Educators and students benefit from high-quality curriculum and the flexibility to integrate learning modules as core or supplemental course content.

Benefits for educators:

- **Industry alignment:**

Students use course materials developed in alignment with the leading hospitality property management system—mirroring practices in major hotel brands.

- **Real-world simulations:**

Digital simulations help students grasp real-life hospitality operations and problem-solving.

- **Easy access:**

Institutions can reduce IT support burdens with 100% online, cloud-based resources—no software installation or maintenance required.

Benefits for students:

- **Skills development:**

Content covers core functions including reservations, guest relations, front-office management, and more.

- **Career preparation:**

Mastery of OPERA-related concepts and workflows distinguishes graduates as industry-ready candidates in hospitality and tourism.

- **Badges:**

Students can complete skill assessments and, upon finishing the learning path, earn electronic badges for professional profiles like LinkedIn (where eligible).

Oracle Academy, Oracle's global philanthropic educational program, is open to academic institutions and their educators to help advance student technology education, skills, innovation, and inclusion. We offer free teaching and learning resources — including curriculum, cloud, software, and more — that help develop key knowledge, hands-on practice, and career-relevant skills.

Join Oracle Academy today and access all the benefits of membership.
