

Prepare the next generation of business leaders with NetSuite

As the world's leading cloud-based business management software, Oracle NetSuite software as a service (SaaS) prepares students for the business world by helping them build the key skills today's employers seek.

NetSuite provides real-time, unified global business management solutions for organizations.

With access to NetSuite through Oracle Academy, plus Oracle Academy Education Bytes learning modules, students can get practical, hands-on experience in business management software with a focus on:

- Accounting and financial management
- Enterprise resource planning (ERP)
- Customer relationship management (CRM)
- Ecommerce
- Supply chain and warehouse management and logistics

Oracle Academy offers access to NetSuite demo accounts and complementary learning modules to facilitate business teaching at post-secondary institutions.

Benefits for educators

- Incorporate the latest business management tools into your teaching
- Access expert-created teaching resources and NetSuite expert support
- Invest minimal time and IT resources with cloud-based resources
- Enjoy a Learning Cloud Support Pass for access to an extensive library of NetSuite professional courses to continue your education

Benefits for students

- Enjoy an enhanced learning experience with easy to understand learning resources and the ability to apply theory into practice
- Access demo accounts for a hands-on experience
- Learn key sought-after career-ready skills
- Enjoy a competitive career edge when seeking employment

University faculty use NetSuite teaching resources to greatly enhance students' learning experiences and provide them with a competitive career advantage through knowledge and hands-on practice. Educators and students can work with NetSuite anytime, anywhere, across several devices using just a web browser, making it easy to incorporate advanced tools into any business program.

Oracle Academy, Oracle's global philanthropic educational program, is open to educators around the world to advance technology education, skills, innovation, and diversity and inclusion. We offer academic institutions and their educators free teaching and learning resources—including curriculum, cloud, software, and professional development—that help them prepare students with knowledge, hands-on practice, and career-relevant skills.
